Hi Hamid!

I apologize for not responding to your message sooner. That does sound like a good idea to send the reports electronically. If it is still possible to receive a copy on a disk as you currently provide, that would also be helpful. Thanks for all of your input for making this a better process - I really appreciate it!

Char

Charlene,

Do you want me to provide only electronic copies of the documents in the future? If you have limited space to maintain your files it may be a better way to go. Please let me know.

Hamid

Hi Hamid!

I just wanted to alert you to one correction in my earlier message for Alizabeth's telephone number. It should read 215-814-2165. If you have any other questions, please let me know. Thanks!

Char

Thanks Charlene for your response. I have provided State of Pennsylvania, Department of Environmental Protection with the subject document and waiting for their input. I will continue to provide you with any document that is furnished to PADEP for your review or as you stated to maintain your files with the most current information.

Regards,

Hamid

Subject: Review of Draft-Final Remedial Investigation Report for Media Nike Missile Battery (PH-75/78) Control Area

Dear Hamid Rafiee:

This message is in regards to the Draft-Final Remedial Investigation Report for Media Nike Missile Battery (PH-75/78) Control Area, Willistown Township, Chester County, Pennsylvania, dated March 2013, requesting comments from the U.S. EPA Region III office.

Given that the associated State personnel are involved with the site activities and since our office's resources are limited, the EPA Region III office will defer to the appropriate State office, or other regulatory agency, for their comments and actions. However, if requested and as necessary, our program will provide a specific reply to an explicit matter that is imperative for ongoing investigations at the site. You may, of course, continue to submit the related site documents and reports to our office in order to maintain our files with the most current information. Should you have any questions, please contact Ms. Alizabeth Olhasso, Chief of the Site Assessment/Non-NPL Federal Facilities Branch at 216-814-2165. Thank you.

Sincerely,

Charlene Creamer

Site Assessment Manager
